Chapin Super Tough

- Chapin Super Tough – a unique material blend and patented process to strengthen the material which allows the user to down gauge MIL thickness by 30% without sacrificing quality.
- Features Chapin Deluxe inlet filtration for superior resistance to clogging.
- 2X the tensile strength of other leading drip tape products
- Reduced Emitter Distortion during the installation and retrieval process allows for increased lifetime of the product with superior uniformity.
- Unmatched uniformity—Chapin tape consistently supplies the lowest manufacturer's variations (Cv) in the industry.
- Best engineered flow path design. Larger internal dimensions provide extraordinary resistance to clogging.
- Proprietary material blend and patented extruded process.
- Slit design outlet will help prevent root intrusion and soil ingestion.
- Turbulent flow path design provides larger internal dimensions offering higher resistance to clogging.
- Longer flow path ensures true drip flow—no squirts.
- Stringent quality checks at every stage of production and for each coil ensure a high quality product.
